Kevin Burns, GSP

Kevin Burns is a safety specialist who conducts on-site safety audits for various Safex clients and provides safety support and assistance for various types of construction companies.

Prior to joining Safex in January 2020, Kevin worked as an Environmental Health and Safety Intern at Superior Construction in Orlando, Florida. He provided safety support to a site as they constructed a large mile stretch of highway including several bridges. While learning about the hazards of civil construction, Kevin helped to improve site safety, culture and conducted environmental audits and managed erosion control.

Kevin has a Bachelor of Science in Safety Management from Slippery Rock University and is a Graduate Safety Practitioner (GSP). Holds an OSHA 10-hour General Industry card, OSHA 10-hour Construction card and is certified in First Aid & CPR/AED. Kevin plans to become a Certified Safety Practitioner (CSP).
