

Unique Safety Career in Mason Co.

Now Hiring Safety Consultant

Growth is happening in Mason County, WV., and this is your chance to get in on the ground floor. Safex, an Ohio-based occupational health and safety consulting firm, is hiring a full time Safety Consultant to support a client who is building a state-of-the-art facility in Mason County, WV.

In this position, you'll be the go-to safety professional during the construction of the facility. You'll work closely with the client to exceed their needs, use your knowledge to keep people safe and have a big impact. As a member of the Safex team, you'll have access to a multitude of resources, continuing education, mentors and supportive peers.

The position is 100% in Mason County, WV, and once the facility is completed, you'll have the opportunity to continue working for Safex or for the client.

Responsibilities include:

- Conducting construction site safety inspections
- Developing lockout tagout and confined space entry procedures
- Conducting qualitative and quantitative fit-testing in accordance with the OSHA standard
- Preparing written programs to meet individual regulatory standards and customer needs
- Providing onsite safety staff support for construction and manufacturing clients
- Developing and presenting toolbox talks and single subject training sessions, and site safety orientations.
- Providing straightforward regulatory interpretations
- Building relationships with clients and increase service offerings with existing clients
- Participating in scheduled marketing programs and activities

Must have skills:

- An Associate's or Bachelor's degree in safety or related science field and two-plus years of safety experience preferred OR five-plus years of safety experience
- Critical thinking and problem-solving ability
- Strong written and verbal communication skills
- Attention to detail

- Effective organizational and time management skills to balance multiple projects simultaneously
- Experience preparing written reports and programs
- Identifying hazards and proposing corrective actions in both industrial and construction environments
- Interacting one-on-one with workers and management to discuss potential hazards and corrective actions

Preferred:

- Eligible for or attainment of ASP/CSP or OHST certifications
- OSHA 502 Trainer for Construction Occupational Health & Safety

About Us: Safex is a growing health, safety and environmental (HSE) firm focused on keeping employees safe and on the job. In 30 years of business, we've established ourselves as the trusted HSE resource to hundreds of businesses in the Midwest and beyond. We consult with clients in all industries. That keeps our work varied and it helps our team grow and learn new things every day. [Learn about our values in this video.](#)
