 - ❖ Conducting full-shift occupational exposure sampling
 - ❖ Conducting non-industrial indoor air quality assessments, including mold
- ❖ Preparing final reports, including conclusions/recommendations for all IH assessments
- ❖ Conducting qualitative and quantitative fit-testing in accordance with the OSHA standard
- ❖ Preparing written programs to meet individual regulatory standards and customer needs
 - ❖ Building relationships and increasing service offerings with existing clients
 - ❖ Selecting appropriate respirators based on the hazard
 - ❖ Providing straightforward regulatory interpretations

Must have skills:

- Certified Industrial Hygiene designation from ABIH
- A degree in industrial hygiene or related science field
- 4+ years of diverse industrial hygiene monitoring experience including preparation of written reports
- Attention to detail
- Critical thinking and problem-solving ability
- Effective organizational and time management skills to balance multiple projects simultaneously
- Strong written communication skills
- Strong intrapersonal communication skills
- Strong Microsoft Office skills

Nice to have skills:

- Manufacturing experience
